5 STOREY LUXURY CONDOMINIUMS IN KAMALA BEACH, PHUKET

Cyan (pronounced Sigh-Ann) is the color that emanates from the calm blue seas as the blue of the sky is reflected on the salty waters that wash ashore over the yellow sand on a clear day. With real estate costs at an all time low & Phuket emerging rapidly as an investment hotspot, there never has been a better time for the smart & astute investor to capitalize on his/her savings.

At Cyan maintaining a coveted & balanced lifestyle is simple. Open your eyes to a destination that offers a bounty of Phuket's most valued treasures and discover the lifestyle to complement it with Cyan.

Specially coordinated unit designs make all the difference in the ability of habitable areas to respond to the resident's needs. Cyan residential units have built-in flexibility to suit the occupant's furnishing preferences. Generous power outlet locations, multi T.V. and telephone connection points, planned circulation paths, ample furnishable areas and unobtrusive location of doors, windows and similar built-in requirements.

HIDDEN QUALITIES THAT MAKE A DIFFERENCE

The differences between quality delivered projects and others are often unseen by the eyes of a non-professional and hence not taken into consideration. Thailand has no strict building regulations for firewalls between units, acoustic

treatment between units and barrier/step-free access features for the disabled, elderly & children THIS IS NOT SO at "CYAN" as instead of turning a blind eye to them, 'CYAN' ensures the incorporation of all this & more.

Cyan is suitable for both holiday letting and residential living, offering energy efficiency with its extensively worked upon, flow through design, comprising:

- 40 fully self-contained condominiums (each condominium 50+m2)
- Structure complete, Architectural finishes in progress.

- Serviced lobby
- Two Elevators
- Swimming pool
- On-site parking
